WORK EXPERIENCE

Frontend Development Intern — ***DiGrows***, Roorkee, Uttarakhand, India, Remote *June 2025 - August 2025*

- Built and maintained scalable React.js frontends for enterprise applications, improving UI/UX for **500+** monthly active users.
- Developed **reusable components** and integrated **REST APIs (React Query)**, reducing dev time by **30%**.
- Delivered responsive, production-ready UIs across devices using **Git-based workflows**.
- **Tech Stack:** React.js, Vite.js, React Query, REST APIs, HTML5, CSS3

Hackathon Winner — ***Annual Tech Fest, Quantum University,*** Roorkee, Uttarakhand, India *April 2024*

- **Swastha** – Real-time remote healthcare system featuring **IoT monitoring and an NLP-based chatbot** for medical queries.
- Collaborated in a cross-functional team handling **IoT, AI/NLP, and backend integration** using **Git**.
- Built and optimized the **React.js frontend**, improving real-time user interaction speed by **35%**.
- **Tech Stack:** React.js, Tailwind CSS, Material UI, Node.js, Express.js, MongoDB, Firebase, Arduino Uno, NLP, Git.

PROJECTS

AllySupport – AI Customer Support SaaS Platform (Next.js, TypeScript, Gemini AI, MongoDB, Scalekit) (Website Link) (GitHub Link).

- Designed a multi-tenant AI chatbot platform delivering **24/7** support, embeddable on any website with a **single script**.
- Implemented secure authentication and custom knowledge bases for fast, context-aware responses.

Hirrd – AI-Powered Job Portal (React.js, Supabase (PostgreSQL), Clerk, LLM APIs) (Website Link) (GitHub Link).

- Developed an AI-driven job portal enabling semantic resume–job matching using NLP.
- Implemented **ATS-style match scoring, skill gap analysis, and role-based** workflows for recruiters and candidates.

Napster – Movie Recommendation System (Next.js, REST APIs, LangChain, YouTube Data API) (Website Link) (GitHub Link).

- Engineered a movie recommendation platform with LLM-based agents for personalized suggestions.
- Explored agent workflows and automation using **LangGraph and n8n**.

InterviewIQ – AI-Powered Interview Preparation Platform (MERN, Firebase, Stripe, Redux Toolkit) (Website Link) (GitHub Link).

- Built a **full-stack AI video interview simulator** using Gemini API for role-specific questions with resume-based personalization.
- Developed **performance analytics dashboards (Recharts)** and automated **PDF reports** to track interview readiness.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, HTML, CSS
Tools: AWS (EC2, S3), Docker, Kubernetes, Git, GitHub, GitLab CI/CD, Postman, n8n
Libraries & Frameworks : React.js, Next.js, Vite.js, FastAPI, Express.js, Tailwind CSS, JWT, Prisma
Databases: MongoDB, PostgreSQL, MySQL, Pinecone
CS Fundamentals: Data Structures and Algorithms, Object Oriented Programming, OS, DBMS, CN, System Design, Microservices

EDUCATION

B.Tech in Computer Science & Engineering (AIML), ***Quantum University, Roorkee, India***
2023 – 2027 | CGPA: **8.25**

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Quest – Generative AI Practitioner (Feb 2026) | AWS | Credly Link
AWS Cloud Quest – Cloud Practitioner (Feb 2026) | AWS | Credly Link
Winner – Annual Tech Fest Hackathon, Quantum University (2024) (Certificate), **Top 30** at Galgotias International Hackathon (Link)
Team Lead – **5x Hackathon Finalist** across university and inter-college events.
Solved **500+** Data Structures & Algorithms problems across platforms **(200+ on LeetCode),** with a strong focus on problem-solving, analytical thinking, and collaboration skills.
