WORK EXPERIENCE

Frontend Development Intern — DiGrows, Roorkee, Uttarakhand, India, Remote June 2025 – Aug 2025

- Built scalable React.js frontend serving **500+ active users**, optimizing rendering and API fetching to reduce UI latency by **30%**.
- Developed reusable component library across **10+** modules, improving UI consistency.
- Integrated **REST APIs** with optimized data fetching (**React Query**), reducing redundant API calls to improve performance.
- Tech Stack:** React.js, Vite.js, TanStack Query, REST APIs, GitHub, HTML5, CSS3

Hackathon Winner — Annual Tech Fest, Quantum University, Roorkee, Uttarakhand, India April 2024

- Built Swastha, an **IoT-powered healthcare platform** for real-time monitoring of **5+ vital parameters** with an NLP medical chatbot.
- Developed responsive UI and integrated Firebase, enhancing live patient monitoring and improving **real-time sync by 40%**.
- Collaborated with a **5-member cross-functional team** handling **backend APIs**, IoT, and AI/NLP integration.
- Tech Stack:** HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, MongoDB, Mongoose, Firebase, EJS, Arduino Uno, NLP

PROJECTS

Forge AI – Agentic Application Development Platform (Next.js, Gemini AI, Cline SDK, PostgreSQL) (Live) (GitHub) May 2026

- Built an **agentic AI platform** that generates React applications from natural-text prompts with live preview and code streaming.
- Implemented autonomous **multi-file code refinement**, secure rate limiting, and persistent workspace management.

AllySupport – AI Customer Support SaaS Platform (Next.js, TypeScript, MongoDB, Scalekit) (Live) (GitHub) Jan 2026

- Designed a multi-tenant AI chatbot platform delivering **24/7** support, embeddable on any website with a **single script**.
- Implemented **secure authentication**, dynamic knowledge base, and **Redis-based API rate limiting** for scalable request handling.

Horizon – AI-Powered Interview Preparation Platform (MERN, Firebase, Stripe, Redux Toolkit) (Live) (GitHub) Aug 2025

- Designed AI-powered interview platform using **Gemini API**, simulating real-time interviews with resume-based personalization.
- Handled **100+** mock interviews and built performance analytics dashboards, improving user preparation efficiency by **40%**.

Hirrd – AI-Powered Job Portal (React.js, Supabase (PostgreSQL), Clerk, LLM APIs) (Live) (GitHub) Sept 2024

- Developed an AI-driven job portal enabling a resume-job matching system achieving **85%+ accuracy**, using NLP.
- Implemented **ATS-style match scoring**, **skill gap analysis**, and **role-based** workflows for recruiters and candidates.

Languages: JavaScript, TypeScript, Java, C, Python, HTML, CSS

Libraries & Frameworks : React.js, Next.js, Express.js, FastAPI, Tailwind CSS, Vite.js, GraphQL, Prisma, JWT

Databases: MongoDB, PostgreSQL, MySQL, Redis, Pinecone

Tools & Cloud: AWS (EC2, S3), Docker, Kubernetes, Git, GitHub, GitLab CI/CD, Postman, n8n

CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, OS, DBMS, CN, System Design, Microservices

EDUCATION

Quantum University, Roorkee, Uttarakhand, India Aug 2023 – June 2027

B.Tech in Computer Science & Engineering (AIML) | CGPA: **8.25/10**

ACHIEVEMENTS & CERTIFICATIONS

AWS Cloud Quest – Generative AI Practitioner | [Credly Link](#) Feb 2026

AWS Cloud Quest – Cloud Practitioner | [Credly Link](#) Feb 2026

Winner – Annual Tech Fest Hackathon, Quantum University (2024) ([Certificate](#)), **Top 30** at Galgotias International Hackathon ([Link](#))

Team Lead – Finalist in 5+ national and university hackathons.

Solved **500+** Data Structures & Algorithms problems across platforms (**280+ on LeetCode**), with a strong focus on problem-solving, analytical thinking, and collaboration skills.
