

# ANKIT KUMAR GUPTA

+91 9304847170 | Roorkee, Uttarakhand, India | [ankitkumargupta752@gmail.com](mailto:ankitkumargupta752@gmail.com) | [ankitbuilds.in](https://ankitbuilds.in) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

## WORK EXPERIENCE

### Frontend Development Intern — DiGrows, Roorkee, Uttarakhand, India, Remote

May 2025 – July 2025

- Built scalable React.js frontend serving **500+ active users**, optimizing rendering and API fetching to reduce UI latency by **30%**.
- Developed **20+** reusable UI components, reducing duplicate code by **40%** and accelerating feature development.
- Integrated **15+ REST APIs** using TanStack Query, reducing redundant network requests by **35%** to improve performance.

Tech Stack: React.js, Vite.js, React Query, REST APIs, GitHub, HTML5, CSS3

### Hackathon Winner — Annual Tech Fest, Quantum University, Roorkee, Uttarakhand, India

April 2024

- Built Swastha, an **IoT-powered healthcare platform** for real-time monitoring of **5+ vital parameters** with an NLP medical chatbot.
- Implemented responsive UI and integrated Firebase, enhancing live patient monitoring and improving real-time sync by **40%**.
- Collaborated in an **Agile, cross-functional team** handling backend APIs, IoT, and AI/NLP integration.

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, MongoDB, Mongoose, Firebase, EJS, Arduino Uno, NLP

## PROJECTS

### Forge AI – Agentic Application Development Platform ([Live](#) | [GitHub](#))

May 2026

Next.js, Gemini AI, Cline SDK, PostgreSQL

- Built an **agentic AI platform** that generates React applications from natural-text prompts with live preview and code streaming.
- Implemented streaming code generation, multi-file editing, workspace persistence, and secure **rate limiting**.

### AllySupport – Customer Support SaaS Platform ([Live](#) | [GitHub](#))

Jan 2026

Next.js, TypeScript, MongoDB, Scalekit

- Architected a multi-tenant AI chatbot platform delivering **24/7** support, embeddable on any website with a **single script**.
- Implemented **secure authentication**, **dynamic knowledge base**, and Redis-based API rate limiting for scalable request handling.

### Horizon – AI-Driven Interview Preparation Platform ([Live](#) | [GitHub](#))

Aug 2025

MERN, Firebase, Stripe, Redux Toolkit

- Designed AI-powered interview platform using **Gemini API**, simulating real-time interviews with resume-based personalization.
- Automated **100+** mock interviews and built performance analytics dashboards, improving interview preparation efficiency by **40%**.

### Hirrd – AI-Powered Job Portal ([Live](#) | [GitHub](#))

Sept 2024

React.js, Supabase (PostgreSQL), Clerk, LLM APIs

- Developed an AI-driven job portal enabling a resume-to-job matching system achieving **85%+** accuracy using NLP.
- Implemented **ATS-style match scoring**, **skill gap analysis**, and **role-based** workflows for recruiters and candidates.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, TypeScript, Python, HTML, CSS, C

**Frameworks & Libraries:** React.js, Next.js, Redux Toolkit, Express.js, FastAPI, Tailwind CSS, Socket.IO, gRPC, GraphQL, Prisma, JWT

**AI & LLM:** LangChain, LangGraph, Pinecone, RAG

**Databases:** MongoDB, PostgreSQL, MySQL, Redis

**Tools & Cloud:** Linux (Ubuntu), AWS (EC2, S3), Docker, Kubernetes, Git, GitHub, GitLab CI/CD, Postman, n8n

**CS Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, OS, DBMS, CN, System Design, Microservices

## EDUCATION

### Quantum University, Roorkee, Uttarakhand, India

B.Tech in Computer Science & Engineering (AIML) | CGPA: **8.31/10** | Aug 2023 – June 2027

## ACHIEVEMENTS & CERTIFICATIONS

- [AWS Cloud Quest – Generative AI Practitioner](#) — Feb 2026
- [AWS Cloud Quest – Cloud Practitioner](#) — Feb 2026
- Winner** – Annual Tech Fest Hackathon, Quantum University (2024)([Certificate](#)), **Top 30** at Galgotias International Hackathon ([Link](#)).
- Team Lead** – Finalist in **5+ national and university hackathons**.
- Solved **500+** Data Structures & Algorithms problems across platforms (**400+ on LeetCode**), with a strong focus on problem-solving, analytical thinking, and collaboration skills.
- Delivered **15+** freelance web applications for **10+ clients** across **EdTech**, **enterprise**, and other domains, handling everything from requirements to deployment.
